29 March 1999

Dear Ms. Du Plessis:

As you may already be aware, ECPAT International has undertaken the task of following up on the implementation of the Agenda for Action adopted at the First World Congress in Stockholm in 1996. Every year we produce a report which outlines what various governments and NGOs around the world are doing to put in place and implement a National Plan of Action in their country and otherwise eradicate the commercial sexual exploitation of children around the world.

Attached, you will find a questionnaire for you to answer. Please complete as much of it as possible. If you are not the correct person, or correct organization, please pass it on to one you think is better suited to reply. However, the more information we receive the more accurate and informative our report will be and all contributions are very welcome. Replies can be used in the report without citing the source, so if you would prefer not to have your organization identified please say so when you reply. If you already replied to our 1998 questionnaire, then please just update the information already provided.

I would greatly appreciate it if you could return the completed questionnaire to ECPAT International by the end of May 1999. A report will be published and released in September 1999. At that time those who provided information will receive a copy, of the report. It will be published in English. We will also be translating the report into Spanish this year and hope to add other languages next year. Please indicate in what language(s) you would like to receive the questionnaire and report for the future. We would like to determine which languages would be the most useful if we are able to do more translation in the future.

If you have any questions, or would like further information. Please do not hesitate to contact either myself, or Nancy Foster, Research Coordinator for the Stockholm Agenda for Action.

Sincerely,

*Muireann O Briain*
